Subject: FW: GW legal conference - panel speaker invitation

Dear Mr. Blumenfeld:

I am organizing a Groundwater Legal issues conference for the American GW Trust.

It will likely be in Los Angeles May 20-22.

The attendees will be mostly water utilities/cities, regulators, lawyers, and consultants (in equal measure).

Is there any chance you could participate in the regulatory enforcement panel?

We hope that Angelo Bellomo (LA County), Felicia Marcus (SWRCB), and Debbie Raphael (DTSC) will participate in the panel also.

If you are unable to attend, perhaps you can suggest an alternate senior EPA representative that might be available, such as Corine Li, Joel Jones or Dave Albright.

Here are the other topics we are considering to give you a flavor:

1. MTBE – the Oxy-moron: NH decision and MDL update (speakers confirmed)
2. 1,2,3-TCP: DBCP Re-dux (speakers confirmed)
3. County In-solvent-cy: OCWD VOC litigation (speakers confirmed)
4. Are the fireworks over? Rialto Perchlorate settlements (speakers confirmed)
5. Non-stick or water-proof: C8/PFC litigation (speakers confirmed)
6. Fracusations or infractuation: Legal aspects of fracking (speakers invited)
7. From Alpha to Omega Chemical (speakers confirmed)
8. I'll put a hex on you: Hinkley, the sequel (speakers invited)
9. 1,4-diox-pain in Big Blue (speakers invited)
10. A double-dip of LUST: Big oil, big Insurance, and big funds (speakers invited)
11. Contaminant conundrum: between MCL and PHG (speakers TBD)
12. Pharma-soup-icals (speakers TBD)
13. Blame the dog: Vapor intrusion (Minneapolis, Mountain View) (speakers TBD)
14. Regulatory actions at the local, State and Federal level (speakers invited)

15. DHP DWP to SWRCB: Smooth transition? (speakers TBD)
